Re: Description: WATER TREATMENT CHEMICAL INJECTION DEVICE

Manufacturer: SCALTROL INCORPORATED

Product Name: SCALTROL

Model Number(s): SC-50 USING THE RSC-50 CARTRIDGE AND SC-100 USING THE RSC-100

CARTRIDGE

Product File No: 20090173

The specifications and/or plans for this plumbing product have been reviewed and determined to be in compliance with chapters Comm 82 through 84, Wisconsin Administrative Code, and Chapters 145 and 160, Wisconsin Statutes.

The Department hereby issues an approval based on the Wisconsin Statutes and the Wisconsin Administrative Code. This approval is valid until the end of June 2014.

This approval supersedes the approval issued on September 23, 2004 under product file number 20040297.

This approval is contingent upon compliance with the following stipulation(s):

- > These products have undergone sufficient testing to document their ability to properly inject a chemical into a water supply system as specified in this approval letter.
- ➤ For buildings not served by a municipal water supply, Department of Natural Resources (DNR) written approval may be required prior to installation of this product to inject a chemical into a water supply system. For more information contact the DNR Private Water Systems Section, P.O. Box 7921, Madison, WI 53707, telephone (608) 266-3415.
- > Only WORX LLC "Scale Control Cartridge", listed under NSF Standard 60, can be used with this product.
- > The maximum concentration of chemical in the treated water downstream of this device is 8.0 mg/l.
- ➤ If the treatment components of this device (e.g. replacement cartridge) are replaced with anything other than those originally approved for use with this device, then this approval shall immediately be considered null and void.

This device was tested under controlled laboratory, or field, conditions. The actual performance of this device for a specific end use installation will vary from the tested conditions based on local factors such as water pressure, water temperature and water chemistry.
